

DESIGN OPPORTUNITIES

"DO" ... Proposed Building Projects ... Designers Needed

**"DO" comes to you courtesy of the American Institute of Architects-Arkansas
under agreement with National Building News**

Guest Editorial from AIA-New Hampshire

Dear Reader,

We'd like to take this opportunity to thank National Building News for submitting their Design Opportunities publication to us each month for distribution to our members free of charge.

This document contains leads on building projects around the country, organized by building type and in alphabetical order by state and city. The PDF is set up so that you can click on a building type and go directly to that section.

The listings are for projects under consideration, with a status report, indicating when a RFP might be forthcoming. This gives you an opportunity to monitor upcoming projects and more time to put together your RFPs.

Carolyn Isaak, Executive Director of AIA-NH

Who Reads "DO"? architects, interior designers, consultants, contractors, developers, building owners and managers and the many facilitators such as realtors, insurers, appraisers, brokers, lawyers, etc., plus the manufacturers of building products needed to bring tomorrow's buildings on line.

Typical Subscribers to "DO" include...AECOM, BR&A Consulting Engrs., CBT Architects, Century Engineering, Core Const., Dewberry, Ennead Architects, Gensler, HKS, Holabird & Root, JCJ Architecture, JE Dunn Const., LMN Architects, M-E Engrs., Moody Nolan, NBBJ, Shepley Bullfinch, Syska & Hennessy, VOA

What is “DO”?

National Building News Service has been reporting on the ever-changing **Skyline of America** since 1964...exactly 50 years. We are proud to present this issue of our new publication “*Design Opportunities*”...also known as “DO”. Unlike other construction lead services, “DO” features only Requests for Proposals (RFP’s) on buildings and renovations under consideration, before selection of an architect or interior designer. Therefore, each project represents an opportunity to be involved in design, construction or management at the earliest phase. Our readers include architects, interior designers, consultants, contractors, developers, building owners and managers and the many facilitators such as realtors, insurers, appraisers, brokers, lawyers, etc., plus the manufacturers of building products needed to bring tomorrow’s buildings on line.

MONTHLY EDITION:

Distributed exclusively to those Professional and Trade Associations, which feel their members can benefit from this advanced notice of Proposed Building Projects. Their subscription calls for “DO” to be distributed promptly each month as a PDF file to each of its’ members.

“Live” Message Board - National - Read By 50,000 Designers Nationwide

- It is one column wide with space for 5 business card size ads or messages, one opposite each project as the reader scrolls down the page.
- **IMPORTANT: because “DO” is distributed exclusively through professional Design and Trade Association members, your ad, or message, will be seen by those members nationwide, over 50,000 of them!**
- This space is “live” so a click on any ad will take the reader to the advertiser’s landing page.
- **Rate: \$200 per ad, per insertion.(2” x 3.5”), receive (6) free insertions with your first order.**

DAILY EDITION - “DO” - Design Opportunities:

- A daily email with recently released Requests for Proposal (RFP’S)
- Approximately 5-10 projects per day.
- Emailed to you as a PDF file.

DAILY EDITION - “DO-SO” - Design and Spec Opportunities:

- A daily email with recently released Requests for Proposal (RFP’S) **and** projects recently awarded to an architect.
- Approximately 10-20 projects per day.
- Emailed to you as a PDF file.

Analysis of Projects in This Issue...

Building Type	Number of Projects	Construction Value
Educational - boarding	15	\$298,208,000
Educational - non boarding	17	\$210,400,000
Entertainment	24	\$444,200,000
Government	30	\$274,025,000
Industrial	13	\$782,181,610
Healthcare	4	\$233,000,000
Mixed Use	23	\$1,154,500,000
Renovation	59	\$869,499,500
TOTAL	185	\$4,266,014,110

These Fine Firms “DO” it every month...

Leo A Daly

M-E Engineers

Parsons Brinckerhoff Inc.

Perkins & Will

RDG Planning & Design

Schirmer Engineering

Thornton Tomasetti Inc.

TMAD Taylor & Gaines

Urban Engineers Group

VOA Associates

Why you need “DO”...

Build Long Term Relationships

* Use “DO” to develop long term relationships with the owners/developers of the projects. You can use the owner/developer contact information as a mailing list to introduce your firm or personally contact the owner via phone. This is an easy way to get your information out to a lot of owners/developers you may not have know about without “DO”. Even if the owner isn’t looking for an architect for their project today; take the time to introduce your firm and develop a beneficial relationship with them, so when they do start the architect search your firm is already on their “short list.”

Expand your Marketing Efforts

* Use “DO” to see what is going on outside your area of focus to see whether you should be looking at new areas. “DO” will show you where to focus your marketing efforts today so the work can be yours tomorrow.

Never Miss an Opportunity

* Use “DO” to make sure you are aware of all the local opportunities available to you and those in the states where you work. Don’t let an opportunity pass by because you weren’t aware of it in time.
* Our Same Day Notification service of Request for Proposals will ensure you never miss an opportunity and allows you to beat the competition.

Know the Who, What, When and Where

* Use “DO” as your eyes and ears. Let “DO” tell you who is developing what, when they anticipate choosing their architect and where they are developing the project. Uncovering leads is very time consuming; let “DO” do it for you.

Let Yourself be Known

* Use “DO” to reach out to your prospective developers and show them your special skills and capabilities. Placing an ad in “DO” is a great way to be seen by just the right people. Your ad in “DO” contains a live hyperlink which will direct readers to your firm’s email or website with just a mouse click.. “DO” can also tell you how many people have clicked on your ad.

Monitor your Effectiveness

* Use “DO” to make sure you are aware of all the opportunities available to you. Is your team on top of all the hot prospects? Are you missing out on prime opportunities?

Analyze the Market

* Use “DO” to analyze trends in the market. See what types of projects are moving forward; see which developers are proposing projects and see what areas of the country have the most activity.

Things to Remember

* **When following up on leads be diligent.** It takes time and persistence to make that winning proposal.
* **Don’t be afraid to think outside the box.** Develop those relationships with developers listed in “DO” and the work will follow.

How To Use “DO”...

A - Reading The Listings

CALIFORNIA, San Diego County, Chula Vista
HOSPITAL EXPANSION

.....\$4,000,000 Project Dollar Value

OWNER: Scripps Memorial Hospital,
c/o Bruce Himbach Contact Phone Numbers

619 457-7033 Fax 619 457-7044
9888 Genesee Avenue, La Jolla, CA 92037 Project Phase Code

STATUS: Last update 8/19/2011 “Project needs approvals. No architect.” Next update 10/2011

Project Status

B - Status of Projects... Reported in 2 phases...P-1, P-2

PROJECT PHASE CODES

P-1
Projects reported for first time.....pgs. 7-21

P-2
Projects previously reported, *anticipated* Request for Proposal (RFP) *within 1 year*.....pgs. 22-44

How To Use “DO”...

C - Finding Projects By Type... in alphabetical order by State and City

The Navigation Bar (which appears on every page except the cover) features separate links for:

P-1 PROJECTS: “DO” is reporting for the first time.

P-2 PROJECTS: Have been published in “DO” in the past, with an anticipated RFP within a year.

Dividing each issue of “DO” into these project categories allows direct selection and quick navigation within the publication. An added bonus is this format results in smaller files, allowing for a much faster download.

Clicking on any of these Navigation Tabs will take you directly to category selected. These categories are defined as follows:

Entertainment

Convention or civic centers, arenas, community centers, and casinos.

Educational

Two subcategories: Boarding projects have residential accommodations on campus and Non Boarding projects do not have residential accommodations.

Government

Facilities for occupancy by local, state or federal government officials.

Industrial

Factories, generating stations, sewage treatment, parking and storage facilities.

Healthcare

Hospitals, nursing homes, medical office buildings and research facilities.

Mixed Use

Developments containing multiple components such as residential, retail and office.

Renovation

Projects of any type, being renovated.

How Strong Is Your ICF Coating?

As an ICF builder, isn't one of your best selling points the strength of the wall? Then why put a soft coating on the outside surface? The solution is PermaCrete—the only cementitious coating specifically approved by the ICC for ICF construction. No surface is stronger, and no surface is more durable!

AMERICAN LIBERTY ELM

Named after the Liberty Tree, our country's
 first symbol of Freedom, this elm is planted by

(YOUR MESSAGE HERE
 ON 8" x 10" BRONZE PLAQUE)

LIBERTY TREE MEMORIAL

The morning of August 14, 1765 Boston
 awakened to discover King George's Tax
 Collector hung in effigy from a great elm
 in protest of the hated Stamp Act. Hence,
 it became known as the "Liberty Tree."
 These "rebellious stripes", America's first flag,
 became the Liberty Tree Flag. Plans for the
 Boston Tea Party were made there. It stood
 in silent witness to countless meetings and
 celebrations, the rallying place for the Sons
 of Liberty. British soldiers cut it down in
 August 1775 because it bore the name "Liberty."

**Is hurricane protection
ruining the look & cost
of your project?**

Evolution Hurricane Shutters

offer you a way to avoid this and other
drawbacks with our patented, energy saving,
crystal clear, distortion free design that looks
nearly as good as it protects. This
revolutionary design is so unique that we call it
"The hurricane shutter that doesn't look like a
hurricane shutter."

Check out our...

-nearly indestructible protection from storms, vandalism
and smash-and-grab attempts.
-faster ROI for owners than IGU windows.
-superb thermal and sound insulation qualities.
-undistorted views from inside - unmatched curb appeal.
-project cost savings & ultra low maintenance.
-made to size capability for new construction or refurb.

* * * * *

LIBERTY TREE MEMORIAL
The morning of August 14, 1765 Boston
awakened to discover King George's Tax
Collector hung in effigy from a great elm
in protest of the hated Stamp Act. Hence,
it became known as the "Liberty Tree."
These "rebellious stripes", America's first flag,
became the Liberty Tree Flag. Plans for the
Boston Tea Party were made there. It stood
in silent witness to countless meetings and
celebrations, the rallying place for the Sons
of Liberty. British soldiers cut it down in
August 1775 because it bore the name "Liberty."

Professional Projects need Professional Consultants.

FOODSERVICE CONSULTANTS SOCIETY INTERNATIONAL
THE AMERICAS

Defining Excellence in Foodservice Consulting
www.fcsi.org • 309-808-2165

Can I use exposed structural steel in my lobby?

Can steel help me minimize
my floor-to-floor height?

Will steel help my project be sustainable?

Can you provide me with exciting concept drawings
on how steel would meet my project needs?

Yes, yes, yes and **YES!**

The AISC Steel Solutions Center has assisted thousands of architects, engineers, general contractors and project owners explore a structural steel solution for their projects. You can take advantage of this free service by calling us at 866.ASK.AISC or emailing solutions@aisc.org.

A SMART IDEA FOR 2014

Become a member of the Association of Licensed Architects,
a dynamic, affordable and growing organization.
The cost for a professional membership is only \$150/year.

"I like the idea of a smaller
organization - with more of a
personal feeling. Being a member
offers timely and engaging
educational offerings and supplier
access for technical questions
relating to projects I am working on."

HOWARD HIRSCH
President, Hirsch Associates LLC
Member of the Association of
Licensed Architects since: 1999

**AMERICAN LIBERTY ELM**

Named after the Liberty Tree, our country's
first symbol of Freedom, this elm is planted by

(YOUR MESSAGE HERE
ON 8" x 10" BRONZE PLAQUE)

* * * * *

LIBERTY TREE MEMORIAL
The morning of August 14, 1765 Boston
awakened to discover King George's Tax
Collector hung in effigy from a great elm
in protest of the hated Stamp Act. Hence,
it became known as the "Liberty Tree."
These "rebellious stripes", America's first flag,
became the Liberty Tree Flag. Plans for the
Boston Tea Party were made there. It stood
in silent witness to countless meetings and
celebrations, the rallying place for the Sons
of Liberty. British soldiers cut it down in
August 1775 because it bore the name "Liberty."

How Strong Is Your ICF Coating?

As an ICF builder, isn't one of your best selling points the strength of the wall? Then why put a soft coating on the outside surface? The solution is PermaCrete—the only cementitious coating specifically approved by the ICC for ICF construction. No surface is stronger, and no surface is more durable!

Can I use exposed structural steel in my lobby?

Can steel help me minimize
my floor-to-floor height?

Will steel help my project be sustainable?

Can you provide me with exciting concept drawings
on how steel would meet my project needs?

Yes, yes, yes and **YES!**

The AISC Steel Solutions Center has assisted thousands of architects, engineers, general contractors and project owners explore a structural steel solution for their projects. You can take advantage of this free service by calling us at 866.ASK.AISC or emailing solutions@aisc.org.

A SMART IDEA FOR 2014

Become a member of the Association of Licensed Architects,
a dynamic, affordable and growing organization.
The cost for a professional membership is only \$150/year.

"I like the idea of a smaller organization - with more of a personal feeling. Being a member offers timely and engaging educational offerings and supplier access for technical questions relating to projects I am working on."

HOWARD HIRSCH
President, Hirsch Associates LLC
Member of the Association of
Licensed Architects since: 1999

**Is hurricane protection
ruining the look & cost
of your project?**

Evolution Hurricane Shutters

offer you a way to avoid this and other
drawbacks with our patented, energy saving,
crystal clear, distortion free design that looks
nearly as good as it protects. This
revolutionary design is so unique that we call it
"The hurricane shutter that doesn't look like a
hurricane shutter."

Check out our...

....nearly indestructible protection from storms, vandalism
and smash-and-grab attempts.

....faster ROI for owners than IGU windows.

....superb thermal and sound insulation qualities.

....undistorted views from inside - unmatched curb appeal.

....project cost savings & ultra low maintenance.

....made to size capability for new construction or refurb.

LIBERTY TREE MEMORIAL

The morning of August 14, 1765 Boston awakened to discover King George's Tax Collector hung in effigy from a great elm in protest of the hated Stamp Act. Hence, it became known as the "Liberty Tree." These "rebellious stripes", America's first flag, became the Liberty Tree Flag. Plans for the Boston Tea Party were made there. It stood in silent witness to countless meetings and celebrations, the rallying place for the Sons of Liberty. British soldiers cut it down in August 1775 because it bore the name "Liberty."
