

DESIGN TACTICS FOR STONE MASONRY PRODUCTS

We will present a PowerPoint show and discuss the following issues and products that we manufacture:

- **CAST STONE vs. ARCHITECTURAL STONE**
 - Defining Architectural Stone
 - Specification differences

- **CRACK CONTROL**
 - Causes of movement and stress in the wall system
 - Control Joint location and distance apart
 - Joint Reinforcement – different types and location

- **MOISTURE CONTROL**
 - Rain-screen Principle – 4 lines of defense for keeping water out!
 - The need for good durable water resistant materials.
 - Installation of flashing and weeps for proper wall cavity drainage.

- **CORDOVA STONE, FRANKLIN STONE, WATERFORD STONE & ENDURAMAX**
 - Colors & Textures
 - Shapes & Sizes
 - Installation Guidelines
 - Custom applications

All AIA members will receive 1 Learning Unit for their attendance. I. I can be reached at (815)922-4592
