Announcing

F.I.E.R.O.'S

17th Fire Station Design Symposium

and call for entries to the

Fire Facilities Design Awards Program

The Fire Industry Education Resource Organization (F.I.E.R.O.)* symposium and design awards program seek to enhance the understanding of fire officials, mayors, city managers, budget directors, architects and others of the functional requirements of a modern fire station and raise a fire department's expectations regarding the architectural possibilities in a fire station design project.

Symposium presenters are carefully drawn from the architectural, fire service, academic and building communities. Details on each presenter's session topic as well as conference registration, hotel registration, and exhibitor information can be found by conducting a search engine request using key words "FIERO fire station design symposium." The web site also has entry requirements for the fire facilities design awards program.

*F.I.E.R.O. is a North Carolina chartered IRS 501(c)(3) nonprofit organization.

2018 award winning architectural design firms for projects shown include:

1. Bohlin Cywinski Jackson Architects with TCA Architects (Honor Award)
2. LeMay Erickson Willcox (Honor Award - Renovation)
3. Brown Reynolds Watford Architects (Merit Award)
4. DSIGN Associates (Merit Award)
5. Samaha Associates (Merit Award - On-the-Boards)
