

GURRIMATUTE

Position: Project Architect

Established over 25 years ago, Gurrimatute is a full service architectural/interior design firm specialized in the design of aviation, educational, civic/federal, and healthcare projects. We are a boutique firm that does both very creative and highly technical projects.

Gurrimatute is seeking a Project Architect to join our team. The ideal candidate is a talented, highly motivated architect. This position will participate in the conceptual design and provide full support through the entire project. Communicate with Project Manager, other architects/architectural staff, and consultants. Develop and represents lead technical designer on projects. Coordinates with the Principals and Project Managers on appropriate technical solutions and product strategies.

Major Goals

- Develop quality designs and construction documents for permit.
- Be responsible and engaged in a project from conceptualization through project close-out.

Job Responsibilities

- Direct report to the Project Manager
- Prepare construction documents for permit using Revit
- Develop project zoning and building code calculations
- Assist to develop Life Safety calculations and drawings
- Lead in-house junior staff; prepare "Red-Lines" as required using Bluebeam
- Knowledge of the following Codes/Guidelines: Florida Building Code, National Fire Protection Association (NFPA), Uniform Facilities Criteria (UFC) & Florida Agency for Healthcare Administration (AHCA)
- Coordinate with engineering subconsultants on each project
- Identify additional services needed by the client
- All other duties as assigned

Benefits

- Mentorship directly under the Principal/Owners
- Expanding, fast-growing company
- Competitive salary
- Promotion/Growth & Leadership Opportunities
- Paid vacation, PTO & Holidays
- Paid Group Health Insurance
- Matching 401K
