DEPARTMENT OF PUBLIC SAFETY
DIVISION OF EMERGENCY MANAGEMENT

A.J. GARY
DIRECTOR

ATC-20

Post-Earthquake Safety Evaluation of Buildings October 25, 2023

COURSE DESCRIPTION:

ATC-20, *Post-earthquake Safety Evaluation of Buildings*, provides training on rapid and detailed evaluation procedures for evaluating earthquake-damaged buildings and posting them as INSPECTED (green placard), LIMITED ENTRY (yellow placard), or UNSAFE (red placard). It provides examples that allow attendees to evaluate building damage conditions, assess the overall risk from the damage, and recommend which of the three placards should be posted on the building.

TARGET AUDIENCE:

Building owners, facility managers, local officials, engineers, architects, small businesses, and emergency managers.

RECOMMENDED PREREQUISITE:

IS325: Earthquake Basics: Science, Risk, and Mitigation is a 30-minute study course that provides basic information on earthquakes and general mitigation techniques. To complete this independent course, visit <http://training.fema.gov/EMIWeb/IS/is325.asp>.

COURSE DESCRIPTION:

Time: 0830-1600 (CST)

Date: **Wednesday, October 25, 2023**
